

XEROX Pagepack: the ultimate in color

Lower your color costs.

Improve your color quality.

And you don't even have to buy the printer!

With Pagepack we've got you covered

- Full color prints for as low as 6 cents a page – with no upfront costs!
- Unlimited supplies and onsite repairs are included
- Free printer is included

The Best Color Printer on the market – Xerox 8560

- Fast 30 pages per minute
- Marketing quality color

Cents per page	Minimum pages	Monthly cost
6	12,000	\$720
7	10,000	\$700
8	8,000	\$640
9	6,000	\$540
10	4,000	\$400
11	3,000	\$330
12	2,000	\$240
20	1,000	\$200

The more you print the less you pay!

With Pagepack everything's included: service, supplies, even the printer in one convenient cost per page price. See the schedule at left. The price per page you pay varies according to how much you print each month. The price per page applies to all pages printed. So for example if you print between 6,000 and 8,000 prints in a given month your price for ALL prints is just 8 cents per page.

The Pagepack agreement term is 3 years. After that you can start a new agreement – return the printer to us – or buy the printer at its fair market value.

Can you have more than one printer and combine all the pages? Yes. To determine the price per page divide the number of pages you plan to print by the number of printers you plan to deploy. For example if you print 12,000 prints in a given month and have 3 printers your cost per page would be 10 cents.
